Budget Garden Fencing

The budget range of Flat Top Tubular fencing designed specifically for use as garden fencing. It is made from long lasting, rust-free aluminium and is available in a range of panel & gate heights. Our Budget Garden fencing range is available in a durable Satin Black powder coated finish.

- Garden Fencing
- Boundary Fencing
- Dog Fencing

**NOTE:** Our Budget Garden Fencing is **NOT** designed to be used for pool fencing. If you require pool fencing, our range of Glass Pool Fencing or Aluminium Pool Fencing should be used to comply with the Australian Pool Safety Standards AS1926.1 [2013].

**Panel Details**

- **Panels (w x h):**
  - 2000mm x 900mm
  - 2400mm x 900mm
  - 2400mm x 1100mm

- **Gates:**
  - 970mm x 900mm
  - 970mm x 1100mm

- **38 x 25mm Horizontal Rails/Gate Frames**

- **16mm Tube Centres:**
  - 100mm

- **50 x 50 Posts:**
  - 50 x 1800mm
  - 50 x 2100mm
  - 50 x 1300mm Flanged
  - 50 x 1600mm Flanged

**Tools Required**

- Tape Measure
- Stringline
- Post Hole Shovel
- Cordless Battery Drill
- Hex Head Drill Bit (5/16)
- Spirit Level
- Soft End Mallet
- Concrete Mix

**Handy Hints**

- Consult your local Council before deciding on your fencing requirements
- Check for all underground services. Simply Dial 1100 for more information
- It’s best to allow at least 24 hours for posts to set in concrete before installing your panels/gates
- Panels & posts can be easily cut down with a hacksaw or grinder
- Remove all metal filings and concrete splatter on completion of installation

**Available Colours**

- Satin Black Only
Materials Checklist & DIY Guide

1 Site Plan & Ordering
- Decide on fence position and measurements of panels & posts by creating a mud map of your site.
- Following the above Materials Checklist, calculate how many of each component you may require.
- Contact your local supplier to complete your order.

2 String Line & Post Holes
- Set String line along the desired line of the fence, close to the ground.
- Measure out all holes, starting with the gate post holes.
- Dig post holes along string line 600mm deep x 200mm in diameter.
- Posts will sit approximately 500mm into the post holes.

3 Install Posts
- Ensure post centres are accurate - see below diagram.
- Ensure posts are flush and level along string line then pour concrete around posts up to 50mm above ground level and taper away from the post.
- If you are using flanged posts, fix with appropriate concrete or timber fixings.

4 Install Panels
- Attach panels to posts using Panel Brackets & Self Tapping Tek Screws.
- 2 Rail panel styles require 4 brackets.
- 3 Rail panel styles require 6 brackets.
- Ensure the bottom of panels are no more than 100mm off the ground at any point.
- Recommended height off the ground is 50-80mm.

5 Install Gate(s)
- Attach hinge & latch components of Gate Kit to gate as per instructions.
- Attach hinge & latch components of Gate Kit to posts as per instructions.
- Tap on Post caps with soft end mallet.

Care Instructions & Warranty:
Exposure to U.V. light, pollution, salt deposits and chemicals can affect the long term performance of the fencing coating if not removed with regular washing.

A regular monthly clean with a soft brush, warm water and mild detergent followed by a rinse of fresh water will maintain the finish of both powder coated, Colorbond® Steel and stainless steel fencing components and fulfill warranty conditions.

Disclaimer: Drawings not to scale. While all care is taken in the production of this DIY (do it yourself) guide it is provided as an indicative installation guide only. The seller is not liable or responsible for the outcome of any fence installed using this guide. © Copyright 2014. All rights are reserved in relation to this matter.
